The 17-8, *streyryes* were usually at work running the land lines and playing the same snaking 12 round for settlement, the 17-8, land office being located at St. Augustine. In the summer of 1842 Capt. Aaron Jernigan, a native of Georgia and

resident of Gadsden county near the Florida line, turned his attention to South Florida. He was an experienced Indian fighter, commencing active service in 1837, and had hunted them in both Georgia and Florida, thoroughly learning their ways and modes of war-

lars. June and July of 1812 were occupied by Capt. Kernigan and Stephen Hull in exploring this section of the country, going as far south as Tampa, also visiting the famous Indian River country and passing up the coast to the

Though there were no settlers in this section the resolute Captain decided to locate near the present site of Orlando being delighted with the beautiful country and the many advantages this loca-

tion insured to the enterprising settler. He secured a permit under the Armed Occupation Act and returned in the autumn across the country with a drove of cattle, his brother Isaac and several black men, including the housekeeper.

They staid their march at the place now occupied by Wm. Holden, about two and a half miles in a southerly direction from Orlando and built a log cabin. The numbers on the surveyors' bonds

showed it to be the S. E. 1/4 Section 1 Township 23 South, Range 29 East. So well pleased were the others with the location that his brother Isaac secured a permit for the S. E. 1/4 adjoining, and Peter G. Hyrnie who had accompanied them to the site, was the first to say, "I will tell the truth, no one who will violate his official trust and then lie about it. We want a President who has made a reputation for strict integrity, untiring industry and honest and able administration of the laws, not one who has made a reputation for corrupt acts, false savings, trickery and systematic

men are laying by their groves, preparatory to gathering the orange crop. Lake Jessup shipped last year in the vicinity of twenty thousand boxes of oranges. The yield this year will not be much larger, but the fruit is of a quality far superior to that of any other grove in the State.

There is an excellent opening here for some man in the hotel line. Lake Jessup possesses charms far above the average, and judging from past winters it is a place people like to visit, whether they

are looking for lands or are merely tourists in search of a pleasant place to spend the winter. A well conducted hotel could not fail to be profitable. Some of our citizens, however, have taken the matter in their own hands.

A new form of paving has been in use in Berlin since last year, which seems to offer some advantages over road. Layers of bricks are put down and impregnated with asphalt. After a short period they lose any air and water that they may contain, and absorb from it to

Reading of a serenade in your paper the other day reminded me of one in which we took place a week or two back. One of our best, and, as we thought, one of our strongest believers in luncheonism

went and got married, and upon his return it was decided to give him and his bride an appropriate reception. Collecting at the store of our hospicious and enterprising merchant, Mr. T. J. Larkin, one crowd of honorable backsliders once

ceeded to the home of the happy couple, and placing ourselves where we would be most apt to make ourselves found by the object of our visit, the musical members of our party struck up a lively tune reminiscent of cake and confections. The
